New Features

SEO SITEMAP.XML AUTO UPDATE

Aligned with the latest release of CloudWorms PDF Viewers 2023, the auto generation of sitemap.xml file required by most search engines has become vitally important to MTN Web Store site. This is because all PDF Viewers previously located at pdfview.malaysiatraining.net subdomain have been moved over to store.malaysiatraining.net. In order for search engines to discover those newly migrated pages much faster, this newly developed automatic sitemap updater will definitely be very useful, not only to handle such one-time migration of those PDF Viewers but also to have a well-maintained and up-to-date sitemap.xml in the long run.

When we mentioned "well-maintained" and "up-to-date", there has to be a mechanism to automatically update the sitemap.xml when the status of PDF Viewers and CloudWorms subscription changes. The tables below depicted this:

1. Sitemap Updates by PDF Viewer Status

☑ `Add to sitemap.xml`

☒ `Remove from sitemap.xml`

Event	PDF Viewer Status by User	PDF Viewer Status by System	Effect on Sitemap.xml
A PDF Viewer is published by the user	PUBLISHED	NORMAL	☑
A PDF Viewer is unpublished by the user	UNPUBLISHED	NORMAL	☒
A PDF Viewer is saved as draft by the user	UNPUBLISHED	NORMAL	☒
A PDF Viewer content is not compliance to MTN Terms & Conditions and/or Content Guidelines	(Any)	TERMS_UNCOMPLIED	☒
A PDF Viewer content has caused a legal issue with 3rd party content owner	(Any)	LEGALLY_UNRESOLVED	☒
A PDF Viewer has been banned by the system	(Any)	BANNED	☒

2. Sitemap Updates by CloudWorms Subscription Status

ⓘ `Depends on Table 1`

☒ `Remove from sitemap.xml`

CloudWorms Subscription Status	Effect on Sitemap.xml
