NODE.js FREELANCE PROGRAMMING SERVICE

RM150/DAY

By OTK Web Solutions

support@malaysiatraining.net

WHAT WE DO

Get stuck on certain issues in Node.js but urgently need to deliver to the client on time? We can be your **"Emergency Rescue Team"!**

The key objective of our **Freelance Node.js Programming Service** is to help our clients to solve their Node.js related issues quickly **at a small cost**. Why pay more when you can have your critical problems resolved in just one or two days for just **RM150 per day**? For a list of scope of issue that we can cover, please **refer to the list on the right**. If the problem that you're facing isn't listed, do not hesitate to contact us at **support@malaysiatraining.net** – we might be able to solve it for you!

SERVICE REQUIREMENTS

Before we can help you to resolve your problems, make sure you're ready for the following:

1. **A single point of contact person** who is able to clearly communicate the problem, provide necessary information, and coordinate the business process.
2. Have a proper channel for code sharing and delivery, e.g. Github.
3. Able to provide sample data for testing when necessary.
4. A good pay master.

SERVICE TERMS

1. RM150.00 per day for small remote Node.js projects only. All payments shall be made in THREE (3) business days upon code delivery to the following bank account:

   Pay To: OTK Web Solutions
   Banker: Malayan Banking Berhad, Malaysia (Maybank)
   Bank Account Number: 5071 4341 0877
   Swift/Routing Code: MBBEMYKL

2. All payments made are not refundable.
3. Clearly written client requirements are required and will be acted as the User Acceptance Test (UAT) document references.
4. The chargeable duration starts from the day the source code is received from the client of which the actual work can be started. If no existing source code is required, a formal purchase order is required from the client and the chargeable start date will be the date the purchase order is received from the client.
5. Work conducted in less than 8 hours in a specific day will be charged in a prorated basis: (RM150 / 8) x Hours Used.
6. Changes required or bug fixing after or during the UAT are chargeable as it is part of the development lifecycle.
7. One (1) month free online support (within scope) will only be provided after full payment has been received in a timely manner.
8. OTK Web Solutions will not responsible for any damages and/or losses, may it be directly or indirectly caused by the code delivered.
